QUESTIONS? EMAIL [EDUCATION@OGDENMUSEUM.ORG.](mailto:education@ogdenmuseum.org)

Instructions

Step 1: Name some shapes. Which shape is your favorite? Search your home for **found objects** that are various shapes. Be sure to ask a parent or guardian's permission to use the objects you find.

Step 2: Once you have collected some objects, take some time to examine them. Notice the size, shape and texture of the objects. How do these characteristics relate to each other? How are they similar or different?

Step 3: Find a place to set up your **assemblage**. You can use any flat surface, maybe on top of a table or on the floor.

Step 4: Think about the **composition** of your artwork. Will you arrange items that are similar in size, shape and texture together? Will you layer them, placing one object on top of another? Take some time to arrange your objects.

Step 5: When you are happy with your arrangement, take photos of your assemblage to share with friends and family.

Vocabulary

Composition - is the arrangement or placement of visual elements in a piece of artwork

Assemblage - a work of art made by grouping found or unrelated objects together

Found Object - a thing that someone else has given or thrown away that is often repurposed by artists

Geometric – composed of geometric elements such as lines and shapes
